## About Me

As a freshly graduate Computer Science student, I am well-versed in a variety of programming languages and technologies, including DBMS, SQL, SDLC, and Python. I have completed several projects throughout my academic career that have allowed me to apply my technical knowledge in a practical setting.

As a problem-solver with strong analytical skills, I am passionate about developing software solutions that can make a positive impact on society. I am a quick learner and eager to expand my knowledge in the field of technology.

## Skills

- Python (5/10)
- HTML / CSS
- SQL (4/10)
- UI / UX (5/10)
- Java Script
- DSA / DBMS / SDLC

## Technology

- UI/UX
- Web Development
- Wireframes
- Prototyping

## Projects

Nov22-Jan23

3 Months

### UI/UX Bakery Service

This project contains the research study, survey, low fidelity, and high-fidelity prototypes.

Mar 23

1 Month

### QUIZ-APPLICATION PROJECT

- Simple Quiz app with a number of simple questions about the flags all over the country.
- Technology Used: Kotlin, XML, Android Studio

Feb-Aug 22

6 Months

### PROJECT MANAGEMENT APPLICATION

- Single user project management application, track all your tasks, add and remove the tasks, and set deadlines and get notifications.
- Technology Used: Kotlin, XML, FireStore

## Education

2019-23

### Bachelor of Technology(CSE)

Laxmi Narain Collage of Technology and Science

2018-19

### XII (SENIOR SECONDARY)

K.K. Convent Hr. Sec. School

## Certification

14 Mar  
2022

Build Wireframes and Low-Fidelity Prototypes.

By: Coursera(Google)

16 Apr  
2022

Create High-Fidelity Designs and Prototypes in Figma

By: Coursera(Google)

## Interest

- Web Development
- Machine Learning
- UI / UX
- Web Development
- Data Science
